psychological society
promoting excellence in psychology

THE UK'S VOICE AND HOME OF PSYCHOLOGY

**As a BPS member you're one of
65,000 people united by a burning
passion for psychology.**

Our membership is diverse but we all share a love for psychology and the way it improves both the lives of individuals and the way the world works. Our members influence Government policy, improve the nation's wellbeing, work to improve working conditions and fight for mental health.

We're recognised around the world as one of the leading authorities of psychology. Employers and academic institutions know the BPS marque is a guarantee of quality.

AS A MEMBER OF THE BPS YOU'RE ENTITLED TO A WIDE RANGE OF BENEFITS TO HELP YOU IN YOUR STUDIES AND YOUR CAREER, INCLUDING:

THE PSYCHOLOGIST

Our official magazine in print, online and on the app. It contains the latest news, reviews, interviews and more. With contributions from leading psychologists, it's the best way to stay up to date with everything happening in psychology.

MEMBER NETWORKS

Being a psychologist is better with others. Our member networks allow you to easily communicate and collaborate with other psychologists. Joining a network is a great way to further your professional and scientific interests.

CONFERENCES AND EVENTS

We organise and run hundreds of psychology events for our members across the country every year. These include our national conferences, as well as seminars, talks, workshops and webinars on a huge range of subjects.

BPS JOURNALS AND CPD

We publish eleven academic journals, covering all areas of the field from clinical psychology to mathematical and statistical psychology. With a BPS membership you get exclusive online access to all of these incredibly useful resources, including back issues and our learning platform BPS Learn, which offers discounted e-learning for members.

MEMBER CONNECT

Our online community, Member Connect, is a network of thousands of psychology industry professionals. It's a space where you can connect with your peers, share ideas, read blog posts, view events and read the latest news across the industry and from the BPS. The discussions section allows you to ask all of those burning questions and get responses from other like-minded people.
