

The British
Psychological Society

Division of
Clinical Psychology
Pre-Qualification Group

Calling all trainees!

Introducing the...

DCP Pre-Qualification Group

The Pre-Qualification Group (PQG) represent those who are on the journey to becoming clinical psychologists at both Pre-Training and In-Training levels of DCP membership. This includes *you* as a trainee clinical psychologist!

Benefits of membership include:

- Discounted CPD and conferences relevant to trainees.
- Bursaries to attend or present at events.
- Opportunities to publish in our column in *Clinical Psychology Forum*.
- Consultation on policies and guidance relevant to trainees (e.g. developing Top Tips for Child Placements with the Children, Young People and their Families Faculty).
- Recognition of innovative research and practice through our in-training PQG Award.
- Report your experiences of training in our *Alternative Handbook*.
- Great networking opportunities and access to peer-support across the UK.
- We help to establish research links and opportunities (e.g. the PQG are currently auditing training courses on teaching of various specialist subjects).
- We work with the DCP and training courses to represent trainee perspectives.

We are also proud to be home to the Minorities in Clinical Psychology Training Group

The Minorities in Clinical Psychology Training sub-group of the PQG primarily exist to facilitate peer-support for people from black and minority ethnic communities, those who identify as lesbian, gay, bisexual or transsexual, and individuals with disabilities and/or caring responsibilities on their pathway to the profession.
